EDUCATION

ENGINEER OF TECHNOLOGY

SaiGon Technology University

2019 - now

WORK EXPERIENCE

INFORMATION TECHNOLOGY CENTER - VNPT | (01/2025-5/2025)cv.vn

- Position: Intern Frontend (VueJS)
- Collaborated with the team leader to analyze UI/UX requirements and convert design mockups into responsive web interfaces using VueJS.
- Implemented dynamic features by integrating RESTful APIs and handling data with Axios and state management techniques.
- Deployed the project to a staging/test environment and assisted in testing across different devices.
- Identified, debugged, and fixed frontend issues reported by testers to ensure smooth user experience.
- Article Management Page – VNPT Project (04/2025)
- Developed a dynamic article management interface using VueJS.
- Implemented features such as article listing, pagination, editing, and deletion...through RESTful API integration.
- Ensured responsive layout across devices and optimized UI
- Login page – VNPT Project (3/2025)
- Develop responsive login interface using VueJS.
- Integrated RESTful API for login requests and authentication token handling (JWT/localStorage).

APPS CYCLONE TECHNOLOGY JSC | (08/2024 - 10/2024)

- Position: Intern Backend (Laravel)
- Analyze the website and requirements provided by the leader
- Collaborate with team members to complete the project
- Build APIs for the project
- Optimize the code and test all functionalities.
